Ms. Lauren J. Belvin
Acting Director, Office of Legislative Affairs
Federal Communications Commission
1919 M Street NW, Room 808
Washington, DC 20054

Dear Ms. Belvin:

Many constituents from Arizona's Congressional District 1 have written expressing their concerns about the proposed Federal Communications Commission NRPM-PR #92-235 and its possible affect on radio-controlled models. I am enclosing copies of some of their correspondence.

I appreciate the need to restructure the 72-76 MHz Band to allow for expanded communications operations using the new technologies that have recently become available. I also understand that without changes, many manufacturers and potential users of the communications band will be curtailed, causing loss of jobs and restricting growth.

I am sure that representatives of the radio-control community would be happy to share their views with you directly. Thank you for your prompt reply.

Sincerely,

Sam Coppersmith
Member of Congress

MP

Dear Sam,

Living a few hundred feet from you, I just thought I would send this to your residence; hope you don't mind.

Normally I use the voting booth to express my concerns and views regarding government,

Rep. Sam Coppersmith
1607 Longworth House Office Building
Washington, DC 20515

Dear Mr. Coppersmith:

I am a hobby retailer who sells many radios, radio-controlled models and related products in my store. In addition, I sell plastic model kits and other related hobby products.

It has recently come to my attention that the Federal Communications Commission (FCC) is considering an action that has the potential to destroy my business and that of thousands of other retailers nationwide like me. The proceeding is PR Docket 92-235.
